## SKILLS

**Programming Languages:** Java • Python C Programming

**SOFT SKILLS** I Team player • communication, adaptability.

## EXPERIENCE

From January 2025 to April 2025

Smart Agriculture System for Optimized Agricultural Productivity

- Developed a web app for soil analysis and a crop recommendation system.
- Used Python and Streamlit.

### PROJECTS

**Project 1 - Smart Soil Analysis System (Web App) 2024 - 2025**

- Developed a smart soil analysis web application for crop recommendation. It includes soil nutrient detection, weather integration, disease image upload.
- It also includes to select suitable fertilizers, pesticides, suitable crop to grow in a particular season.
- This enables farmers to get optimized crop based on real time data. Project 2 - Digital Artisan Marketplace (Web App) Created a web app to promote handmade products by rural artisans.

### PROJECTS FROM 2025-2026:

- Developed a console-based Employee Management System using Object Oriented Programming (OOPS) principles.
- Implemented core features such as Add, View, Update, Delete, and Search employee records.
- Applied OOPS concepts including Classes, Objects, Inheritance, Encapsulation, Polymorphism, and Abstraction.

### INTERNSHIP:

- At Codtech Solutions on the topic C Programming and earned a certificate in the duration of 1 month.

## HONORS and AWARDS

- Cisco Ethics and privacy, Digital Forensics.
- Python and C programming with hands on skills.
- Earned a certificate from **INFOSYS SPRINGBOARD** on the domain of computer architecture and IOT.

## COURSEWORK

- Data Structures and Algorithms
- Differential Equations

## INTERESTS

- Traveling
- Fitness
- Nutrition
- Self-improvement

## EDUCATION

Department of Computer Science and Engineering,  
Division of Computer Science and Technology.

**Karunya Institute of Technology and Sciences**  
**Coimbatore, Karunya Nagar 641114.**
